25 January 2024

Wheelers Lane Stage 2 Upgrade from Railway Crossing to Myall Street

Dubbo Regional Council (DRC) wishes to advise that starting from Wednesday 31 January 2024 there will be temporary changes to traffic conditions as works continue on the Wheelers Lane upgrade project.

Wheeler Lane, between the Rail crossing and Myall street, will be subject to reduced traffic flows with one lane open in each direction (see attached map). This would still allow buses and the general public to access Wheelers Lane with minimal disturbance. This traffic control arrangement is planned to run for approximately three weeks, weather permitting.

Access to the residents on the eastern side of Wheelers Lane from Wentworth Street to Douglas Mawson Road may be disrupted during these works. Council staff will liaise with these residents to facilitate access to their properties.

Due to the nature of this work, traffic conditions will change in February 2024. Further details on the impact on traffic, and to keep up to date on the project, please visit Council's 'Your Say' page at the following link, and click the '+ Follow' button at the top left-hand of the project page.

If you are following the project, you will receive notifications and updates as the project progresses.

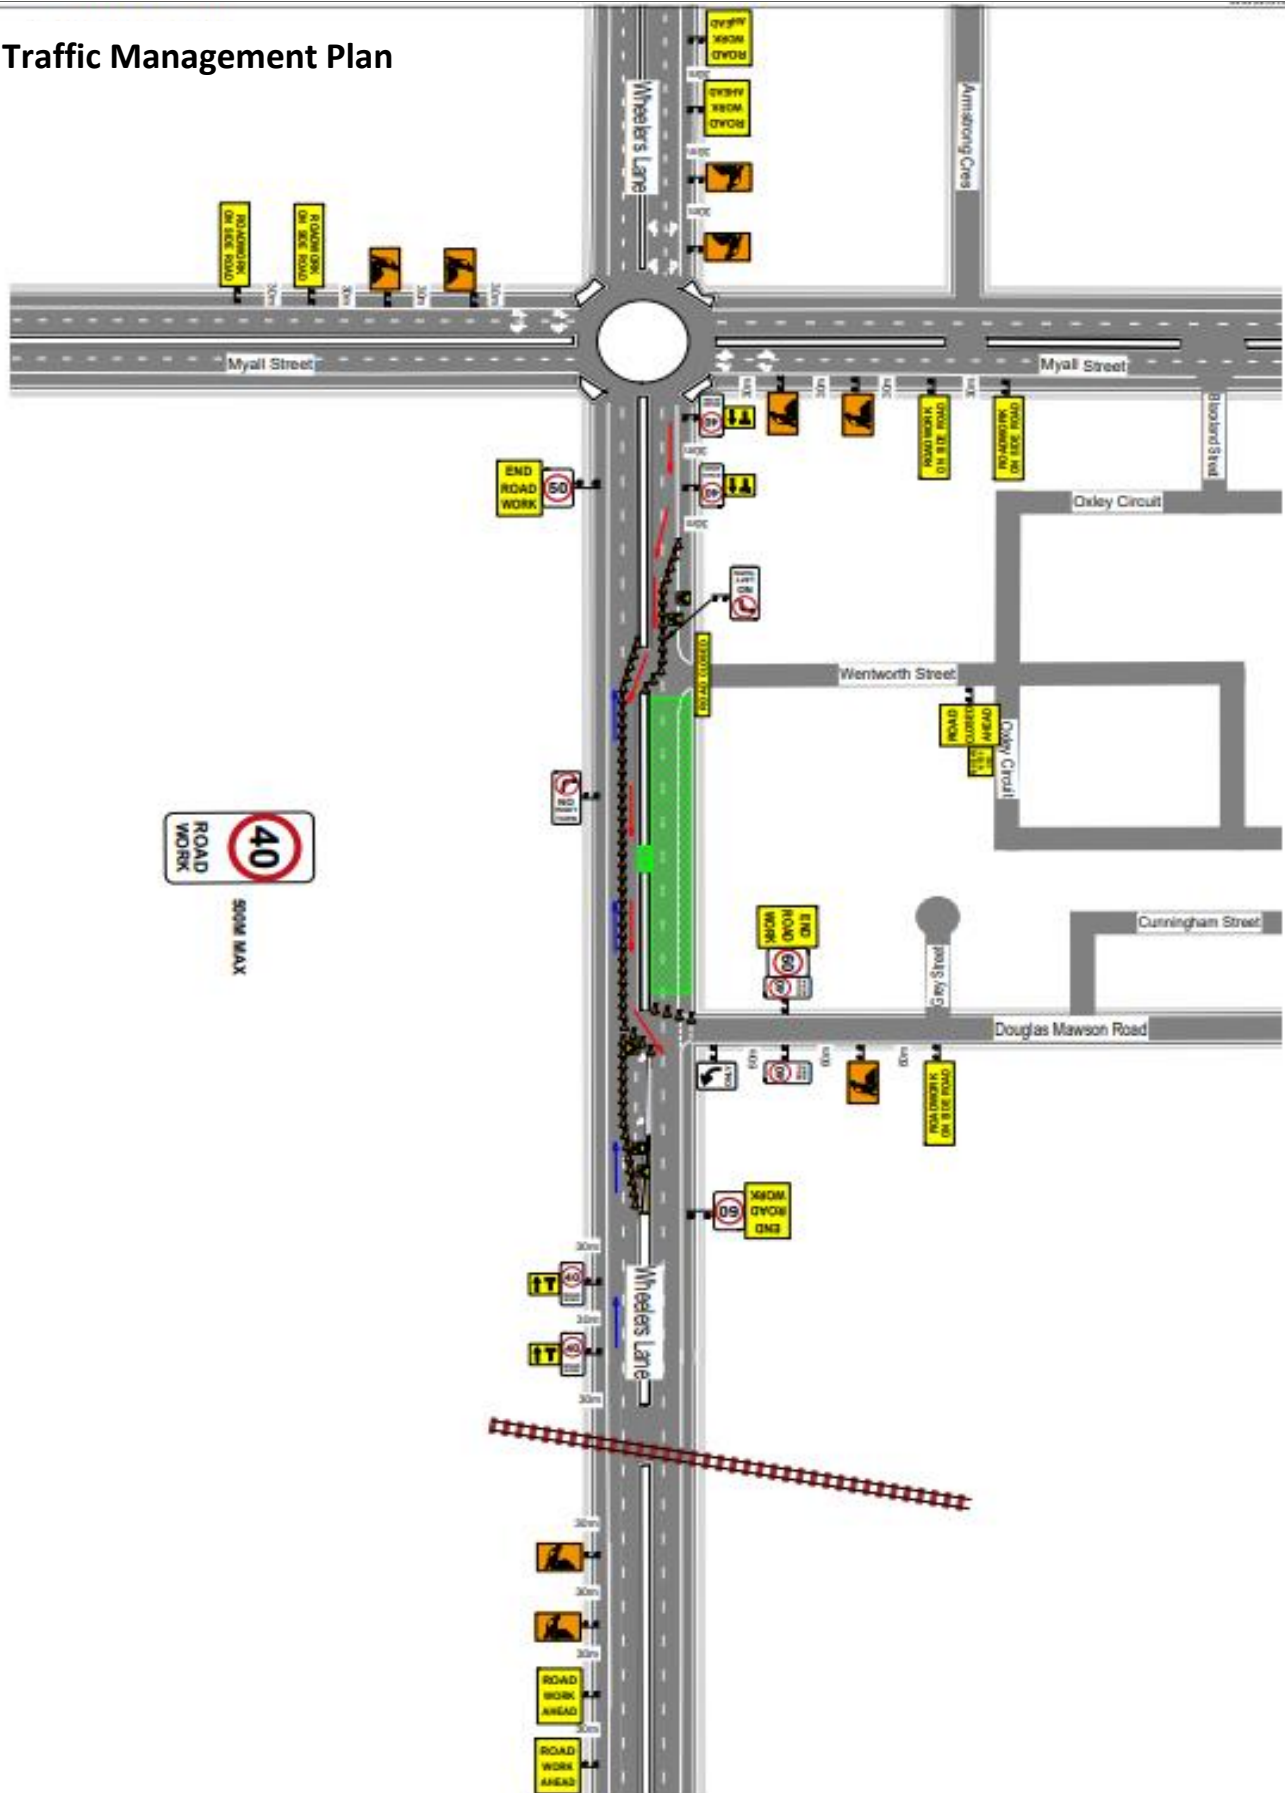

Council acknowledges the inconvenience these works may cause, especially to local residents and businesses, and thank you for your continued understanding during these infrastructure improvement works.

If you have any further concerns please contact Council's Project Engineer, Satish Bandela, during normal office hours, on 0418 882 839.
