Tamworth Street Pavement Reconstruction Project (Fitzroy Street to Palmer Street)

Dubbo Regional Council (DRC) wishes to advise residents and local businesses of Tamworth Street and Jubilee Street that the Tamworth Street Pavement Reconstruction Project is programmed for commencement in mid-March 2024.

These works are aimed at improving the pavement performance by complete reconstruction of the existing pavement. At this stage Council anticipates that the reconstruction works will take approximately (9) nine to (13) thirteen weeks to complete, weather permitting (see project map attached).

Council understands that these works may impact access to footpaths, driveways, and businesses. To minimise these impacts, Council wishes to undertake these works in different stages including night works, with details to be confirmed at a later date.

Council also wishes to notify residents that there will be some noise associated with these works, however, Council will endeavour to minimise the disturbance to residents.

Although the project commencement date is still to be confirmed, residents and local businesses will be notified once the project has been confirmed. Council will also advise residents of the proposed hours and the expected duration of the works.

Further details on the impact on traffic, and to keep up to date on the project, please visit Council's 'Your Say' page at the following link, and click the '+ Follow' button at the top left-hand of the project page.

If you are following the project, you will receive notifications and updates as the project progresses.

Council acknowledges the inconvenience these works may cause, especially to residents and businesses, and thank you for your continued understanding during these infrastructure improvement works.

Should you have any questions in relation to this courtesy notice please contact Council's Project Engineer, Umesh Khatri, during normal office hours on 0473 801 993.
