Tamworth Street Pavement Reconstruction Project Update

Dubbo Regional Council wishes to advise residents and local businesses that the Tamworth Street Pavement Reconstruction Project is well advanced, with approximately 75% of the works completed.

Council acknowledges the inconveniences caused by these ongoing works, particularly those carried out at night. We thank you for your understanding, as we make every effort to complete the works in the quickest possible timeframe. The project team has minimised the number of night shifts. However, night works remain necessary so Council can balance the competing needs of maintaining property access, safe traffic movements and timely project delivery.

The remaining schedule of works to complete the Tamworth Street Reconstruction project is listed below:

- **Stage 2 - In front of St Lawrence School (day works)** Commencing on 15 April 2024, for approximately one week.
- **Stage 6 - Sterling Street Roundabout (night works)** Commencing on 22 April 2024, for approximately one week.
- **Asphalt Works - all stages between Palmer and Fitzroy streets (night works)** Council is in the process of confirming a commencement date. Once confirmed, a courtesy notice will be issued with the necessary information.

Council notes that the use of the Palmer Street gravel stockpile site during nightworks will conclude on Friday 12 April 2024. After this date access to the stockpile site will only be required during day works.

During each work shift road closures will be required. These closures will be in place from 7 am to 6 pm for day works, and from 7 pm to 6 am for night works. The road will be re-opened to traffic at the conclusion of each shift.

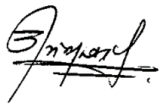

For further details on the impacts to traffic, and to keep up to date on the project, please visit Council's 'Your Say' page at the following link, and click the '+ Follow' button at the top left-hand of the project page.
